

INFORMATION SECURITY POLICY

The Management and personnel of FLAMECONTROL MON. I.K.E. are committed to providing competitive and efficient integrated solutions in the field of Firefighting and Fire Safety Systems and Components, through a process-based approach aimed at ensuring Information Security.

To achieve this objective, Management has established the following goals, which are subject to continual review, monitoring, and updating as required:

- To provide adequate resources, including qualified, experienced, and trained personnel capable of meeting service requirements.
- To use the Information Security Management System (ISMS) as a foundation for the continual improvement of the company's organization and operations.
- To fully comply with all applicable legislative and regulatory requirements related to its business activities.
- To control and monitor business processes, with the goal of continually enhancing the effectiveness of the ISMS and further improving customer satisfaction.

In line with this statement, FLAMECONTROL MON. I.K.E.:

- Strives to identify and pursue sustainable development opportunities in its provided services by seeking and utilizing customer feedback.
- Requires all personnel to adopt and comply with this Policy.

Top Management is committed to providing all necessary resources for the proper implementation and continuous updating of the company's Policy.
